### Objectives and investment policy

Kathrein Sustainable Euro Bond (R) is a bond fund. Its investment goal is, in particular, regular income. At the individual stock level, the investment fund invests exclusively in securities and/or money market instruments whose issuers have been classified as sustainable on the basis of ESG (environmental, social, governance) criteria. The fund invests at least 51 % of the fund assets in EUR-denominated bonds and at least 80 % of the fund assets in EUR denominated bonds and/or money market instruments which are issued or guaranteed by a member state of the European Union (including its regional authorities), or by a third country, or by an international organization established under public law of which one or more member states are members, and whose ratings (or, in the case of non rated bonds, the issuer's rating) is at least investment grade (Standard & Poor's BBB-, Moody's Baa3, Fitch BBB- or similar ratings from other ratings providers/rating assessments). The fund may also invest in bonds and money market instruments issued by supranational issuers or companies etc., in other securities, in units in investment funds and in sight deposits and deposits at notice. It excludes all direct investments in companies in the arms industry or in companies which violate labor and human rights, or which generate their income from the production or mining of coal, or a substantial amount of their income from the processing or use of coal or other coal-related services. Furthermore, companies are excluded that manufacture significant components relating to the field of "controversial" weapons (e.g. cluster munitions, chemical weapons, landmines), or whose corporate governance fails to meet a certain level of quality. Derivative instruments that may enable or support speculative deals with food commodities are also excluded from purchase. Please see the prospectus (Part II, item 13.1) for more information on the negative criteria. The fund may invest more than 35 % of the fund assets in securities/money market instruments issued by the following issuers: Austria, Germany, Belgium, Finland, France, Italy, Spain or the Netherlands.

The fund is actively managed with reference to a benchmark. Such reference to a benchmark does not restrict the fund management's scope of action.

Within the framework of the investment strategy, the fund can primarily invest in derivative instruments (in relation to the related risk) and use derivative instruments for hedging. In unit class A the fund's income will be distributed on 15.11. Distributions of the fund's core assets and interim distributions are also permitted. In all further unit classes the fund will retain any income which will increase the value of its units.

Except in case of a suspension due to extraordinary circumstances, unit holders may require daily redemption of units by the custodian bank at the applicable redemption price.

**Recommendation:** this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

Its risk/reward profile relates to past results and should not be used as a reliable indication of its future risk/reward profile. A category 1 classification does not imply a risk-free investment. A risk classification may change over time. The fund has received a category 3 risk classification on the basis of past price fluctuations experienced by the fund or a similar portfolio or an applicable risk definition system.

Risks which are not included in the risk classification but are nonetheless significant for the fund:

**Credit risk:** The fund invests portions of its assets (directly or via credit derivatives) in bonds and/or money market instruments. Issuers may become insolvent (or their solvency may deteriorate). These bonds and/or money market instruments (or credit derivatives) may therefore suffer a partial or complete loss of value.

**Liquidity risk:** It may not be possible to sell a position in due time for an appropriate price. This risk may also lead to a suspension of redemption of unit certificates.

**Counterparty risk:** The fund executes transactions with various contractual partners. These contractual partners may fail to satisfy a claim held by the fund, e.g. due to insolvency.

**Operational risk, safekeeping risk:** There is a risk of losses resulting from a failure of internal processes/systems or external events (e.g. natural disasters). Safekeeping entails the risk of a loss of fund assets which may result from insolvency, breach of a duty of care or abusive conduct by the custodian or a sub-custodian.

**Risks resulting from the use of derivatives:** The fund may make use of derivatives transactions not only for hedging purposes but also as an active investment instrument. This will increase the risk of a fluctuation in the fund's value.

## Charges

The fees charged will be used for the fund's management. They include the charges for the sale and marketing of the fund units. The deduction of these charges will diminish the fund's potential performance.

### One-off charges before and after an investment is executed

<b>Subscription fees</b>	<b>3,00 %</b>
<b>and redemption fees</b>	<b>0,00 %</b>

This is the maximum amount which is deducted from your investment prior to its execution/payment of your return. Please refer to the distribution office concerning the current fees. The subscription fee and the redemption fee indicated above represent the fees charged by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. The distributor may also apply to the subscriber, as is mentioned in the prospectus, entry fees (also defined intermediation fees/sale fees/start-up fee) as a percentage of the amount invested in the fund. For more information, please refer to the information provided by the distributor and - where applicable - to the additional mandatory documentation delivered to and signed by the investor in accordance with the provisions in force in the various countries where the fund units are marketed.

### Charges deducted from the fund in the course of the year

<b>Ongoing charges</b>	<b>0,64 %</b>
------------------------	---------------

The „ongoing charges“ have been calculated on the basis of the figures as of 31.10.2022 including the previous 12-month period. The „ongoing charges“ include the management fee and all fees charged in this period. Third-party transaction costs and performance-related fees are not included in the „ongoing charges“. The „ongoing charges“ may differ from year to year. Please refer to the „Expenses“ sub-item of the current annual fund report for precise details of the cost components included in the „ongoing charges“.

Presentation in accordance with the benchmark used in the past, which may deviate from the benchmark reported. We can also provide you with more detailed information free of charge on request.

Raiffeisen KAG calculates performance based on the published fund price, using the OeKB methodology. Individual costs – such as transaction fees, the subscription fee, the redemption fee or custody charges of the investor – and taxes are not included in the performance calculation. These would reduce the performance if they were included. Past value is not a reliable indicator of the fund's future performance. Notice for investors with a different functional currency than the fund currency: We expressly point out that returns may rise or fall due to currency fluctuations.

The fund (tranche AT0000779772) was launched on Jul 12, 1999.
