ISIN income-retaining (T)	EUR	EUR	Jul 12, 1999	AT0000779772

This fund is managed by **Raiffeisen Kapitalanlage-Gesellschaft m.b.H.**
Fund management: **Kathrein Privatbank Aktiengesellschaft**

Objectives and investment policy

Kathrein Euro Bond (R) is a bond fund. The fund pursues an investment goal of regular income and mainly invests (at least 51 % of its fund assets) in euro-denominated government bonds. The fund may also invest in bonds and money market instruments issued by supranational issuers or companies etc., in other securities, in units in investment funds and in sight deposits and deposits at notice. The fund may invest more than 35 % of its fund assets in securities/money market instruments issued by the following issuers: Austria, Germany, Belgium, Finland, France and the Netherlands.

The fund is actively managed with reference to a benchmark. Such reference to a benchmark does not restrict the fund management's scope of action.

Benchmark	Weighting in %
JPM GBI EMU	100,00

All indices mentioned are registered brands. The licensor(s) does/do not sponsor the fund, subsidize it, sell it or support it in any other way. Calculation and licensing of the index or index brand does not represent a recommendation to invest. The respective licensors are not liable to third parties for any errors in their indices. For legal information regarding licensors, see www.rcm.at or www.rcm-international.com.

Within the framework of the investment strategy, the fund can primarily invest in derivative instruments (in relation to the related risk) and use derivative instruments for hedging. **Low or even negative yields on money market instruments and bonds induced by the market can have a negative effect on the net asset value or be insufficient to cover the recurrent costs.** In unit class A the fund's income will be distributed on 15.11. Distributions of the fund's core assets and interim distributions are also permitted. In all further unit classes the fund will retain any income which will increase the value of its units.

Except in case of a suspension due to extraordinary circumstances, unit holders may require daily redemption of units by the custodian bank at the applicable redemption price.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Its risk/reward profile relates to past results and should not be used as a reliable indication of its future risk/reward profile. A category 1 classification does not imply a risk-free investment. A risk classification may change over time. The fund has received a category 3 risk classification on the basis of past price fluctuations experienced by the fund or a similar portfolio or an applicable risk definition system.

Risks which are not included in the risk classification but are nonetheless significant for the fund:

Credit risk: The fund invests portions of its assets (directly or via credit derivatives) in bonds and/or money market instruments. Issuers may become insolvent (or their solvency may deteriorate). These bonds and/or money market instruments (or credit derivatives) may therefore suffer a partial or complete loss of value.

Liquidity risk: It may not be possible to sell a position in due time for an appropriate price. This risk may also lead to a suspension of redemption of unit certificates.

Counterparty risk: The fund executes transactions with various contractual partners. These contractual partners may fail to satisfy a claim held by the fund, e.g. due to insolvency.

Operational risk, safekeeping risk: There is a risk of losses resulting from a failure of internal processes/systems or external events (e.g. natural disasters). Safekeeping entails the risk of a loss of fund assets which may result from insolvency, breach of a duty of care or abusive conduct by the custodian or a sub-custodian.

Risks resulting from the use of derivatives: The fund may make use of derivatives transactions not only for hedging purposes but also as an active investment instrument. This will increase the risk of a fluctuation in the fund's value.

Charges

The fees charged will be used for the fund's management. They include the charges for the sale and marketing of the fund units. The deduction of these charges will diminish the fund's potential performance.

One-off charges before and after an investment is executed

Subscription fees	3,00 %
and redemption fees	0,00 %

This is the maximum amount which is deducted from your investment prior to its execution / payment of your return. Please refer to the distribution office concerning the current fees.

Charges deducted from the fund in the course of the year

Ongoing charges	0,63 %
------------------------	---------------

The „ongoing charges“ have been calculated on the basis of the figures as of 31.12.2019 including the previous 12-month period. The „ongoing charges“ include the management fee and all fees charged in the past year. Third-party transaction costs and performance-related fees are not included in the „ongoing charges“. The „ongoing charges“ may differ from year to year. Please refer to the „Expenses“ sub-item of the current annual fund report for precise details of the cost components included in the „ongoing charges“.

Charges which the fund may incur in certain circumstances

not applicable

Past performance

The following graph shows the performance of the fund (tranche AT000077972) and the benchmark in EUR. The depicted performance of the fund is also representative for the other tranches referred to on page one.

Performance is calculated by Raiffeisen KAG according to the OeKB method, based on data provided by the custodian bank (using any available indicative values when the payment of the redemption price is suspended). Individual costs – such as the issue premium, the return fee, the investor's securities account fees, and taxes – are not taken into account in calculating performance. These would reduce the performance if they were included. **Past value is not a reliable indicator of the fund's future performance.** Notice for investors with a different functional currency than the fund currency: We expressly point out that returns may rise or fall due to currency fluctuations. The fund (tranche AT000077972) was launched on Jul 12, 1999.

Practical information

The custodian bank for the fund is Raiffeisen Bank International AG.

The prospectus and the fund regulations, the annual and semi-annual fund reports, the issue and redemption prices and further information for the fund may be obtained free of charge in German from the website www.rcm.at.
